

MAGNET Reproduction Accuracy Report

Aim: To reproduce the MAGNET results on **BRCA**, **BLCA** and **OV** datasets and compare the obtained accuracy with the values reported in Table 1 of the MAGNET paper.

Colab Notebook: <https://colab.research.google.com/drive/1MbfmIv8GrQzdNgpL9LkkTHMGU4-3ipBL?usp=sharing>

GitHub Folder: https://github.com/goutamsaums/mlsi-summer-internship-2026/tree/main/MAGNET_Reproduction_BRCA_BLCA_OV

Dataset	Previous Result	Final Result	Paper Accuracy	Paper Range	Roughly Matches?
BRCA	0.9198	0.9198 ± 0.0131	0.918 ± 0.012	0.906–0.930	Yes
BLCA	0.9705	0.9705 ± 0.0062	0.970 ± 0.006	0.964–0.976	Yes
OV	0.5753	0.5753 ± 0.0750	0.614 ± 0.052	0.562–0.666	Yes

Result: The MAGNET paper reports accuracy as mean $\pm$ standard deviation over five independent runs. Therefore, the paper range was calculated as:

$$PaperRange = PaperMean \pm PaperStandardDeviation$$

The reproduced mean accuracy values for **BRCA**, **BLCA** and **OV** lie within the corresponding paper-reported ranges.
