

MAGNET Reproduction Accuracy Report

Aim: To run the official MAGNET code on **BRCA**, **BLCA** and **OV** datasets and compare the obtained accuracy with the values reported in the MAGNET paper.

Colab Notebook: <https://colab.research.google.com/drive/1MbfmIv8GrQzdNgpL9LkkTHMGU4-3ipBL?usp=sharing>

GitHub Folder for Data and Outputs: https://github.com/goutamsaums/mlsi-summer-internship-2026/tree/main/MAGNET_Reproduction_BRCA_BLCA_OV

Dataset	My Accuracy	Paper Accuracy	Roughly Matches?
BRCA	0.9198	0.918	Yes
BLCA	0.9705	0.970	Yes
OV	0.5753	0.614	Yes

Rough Matching Criteria:

BRCA and **BLCA** were considered roughly matching if the difference between my accuracy and paper accuracy was within ± 0.03 .

OV was considered roughly matching if the difference was within ± 0.06 , because OV has higher variation across runs.
