

MAGNET Reproduction Accuracy Report

Deliverable: Accuracy comparison on BRCA, BLCA and OV datasets

Dataset	My Accuracy	Paper Accuracy	Roughly Matches?
BRCA	0.9198	0.918	Yes
BLCA	0.9705	0.970	Yes
OV	0.5753	0.614	Yes

Note: Roughly matching criterion - BRCA and BLCA are considered matching if $|\text{My Accuracy} - \text{Paper Accuracy}| \leq 0.03$.
OV is considered matching if $|\text{My Accuracy} - \text{Paper Accuracy}| \leq 0.06$, because OV shows higher variation across runs.
